Tools: Google Docs, Google Drive, GitHub

Core Skills: Data Cleaning, Data Analysis, Data Visualization, Dashboard Development, Reporting, Business Intelligence, Problem Solving, Critical Thinking, Communication.

Projects

Customer Shopping Behavior Analysis Capstone | SQL, Python, Power BI, Excel

Jan 2026 – Feb 2026

- Analyzed 3,900+ customer purchase records using SQL and Python to identify customer behavior, purchasing trends, and revenue opportunities.
- Performed data cleaning, feature engineering, and exploratory data analysis (EDA) to uncover insights on customer segmentation, subscriptions, shipping preferences, and discount usage.
- Developed an interactive Power BI dashboard to visualize business insights and support data-driven decision-making.

Amazon Sales Dashboard | Power BI

Nov 2025 – Dec 2025

- Developed an interactive Power BI dashboard using DAX to monitor YTD Sales, QTD Sales, Products Sold, and Customer Reviews.
- Analyzed monthly and weekly sales trends through dynamic visualizations to identify seasonal patterns and high-performing products.

SQL Sales Data Analysis | SQL Server (SSMS)

Oct 2025

- Wrote SQL queries using JOINS, GROUP BY, aggregate functions, filtering, and subqueries to analyze sales performance and customer behavior.
- Performed business-focused analysis on revenue trends, customer segmentation, cancellations, and category-level performance.

Hospital Emergency Room Dashboard | Microsoft Excel

Sep 2025

- Designed an interactive Excel dashboard to monitor patient volume, average wait time, satisfaction scores, and department referrals.
- Used Pivot Tables, slicers, charts, and Excel functions to automate reporting and simplify operational analysis.

Certifications

Data Analytics Certification – Coding Ninjas

Dec 2025

Education

PG Diploma in Journalism & Mass Communication

2021 – 2022

Dayalbagh Educational Institute, Agra

Bachelor of Commerce (B.Com)

2019

Agra College, Agra
